Your neighborhood groups name:

The names of other members in your group:

The person in your group that will be in charge of emailing me group news:

1. Does your group want new members?
2. The person a new member would contact:
3. Where does your group meet?

Any other information about your neighborhood group you think I can use:

Any suggestions you have for me that would help me collect this information or do my job better:

I know most groups do not have a contact person, a name, a new member host, a permanent meeting place. Do your best. Take this sheet to a meeting and pick a group name, make a group roster.

Ask the questions:

1. Do we have room for more members?
2. Who will be our contact person?

If I do not get this sheet mailed back to me I will be calling you for this information.

We have 160 members. **Please save me a call.**
